

César Antonio Carvajal de la Haza

Mathematician · Statistician · Physicist

cesardelahaza@hotmail.es · (+34) 658 169 411 · LinkedIn · GitHub · cesardelahaza.github.io

PROFILE

Triple graduate in Mathematics, Statistics, and Physics (GPA 8.0–8.3/10). Experienced in Python, R, GNSS systems, and mathematical modelling. Passionate about quantum computing, AI, and data science. Currently teaching Mathematics at secondary level while continuing research and technical training.

Full academic CV available at my personal space on the web: cesardelahaza.github.io.

EDUCATION

BSc Physics — 240 ECTS (2021–2025) | GPA: 8.1/10

UNED, Spain

Honours in Classical Mechanics, Vibrations & Waves, Quantum Physics II, Dynamical Systems. Final project: Entanglement Entropy & Geometry (Python simulations).

BSc Mathematics — 240 ECTS (2016–2021) | GPA: 8.0/10

University of Seville, Spain

Algebra, calculus, topology, cryptography, and computing. Languages: Haskell, Python, MATLAB, Maxima.

BSc Statistics — 240 ECTS (2016–2021) | GPA: 8.3/10

University of Seville, Spain

Statistical inference, multivariate analysis, ML, and computational statistics. Honours in Survey Design.

TRAINING & CONTINUING EDUCATION

Introduction to Quantum Computing — 1.5 ECTS (2026–ongoing)

UNED, Spain

GNSS Academy — Intensive Training Programme (Jan–Jul 2025)

6-month combined study and practical programme

Study: DGNSS, RTK, PPP, SBAS, GNSS data processing, SP3 orbit propagation, ionospheric/tropospheric corrections, advanced positioning. Project: GNSS+IMU sensor fusion simulator in Python/Linux with Least-Squares Estimation.

WORK EXPERIENCE

Secondary School Mathematics Teacher (2026 – present)

Seville, Spain

Teaching Mathematics from 3º ESO to 2º Bachillerato. Exam preparation, curriculum planning, personalised adaptations, academic guidance.

QA Automation Engineer (Apr – Nov 2022)

Deloitte, Spain

Automated test suites in Selenium/Java; co-implemented framework with Cucumber & Jenkins. Defect tracking in Jira; collaborative development with Git.

Private Tutor — Mathematics, Physics, Chemistry (several years)

Self-employed

Tutored students across multiple subjects; focus on clarity, reasoning, and problem-solving.

TECHNICAL SKILLS

Programming: Python, R, Haskell, MATLAB, SQL (basic), C/C++ (basic), Bash (basic)

Tools: Linux, Git, Jupyter, LaTeX, VSCode, gLAB

GNSS & Nav: DGNSS, RTK, PPP, SBAS, IMU fusion, SP3 propagation, ECEF transformations

Data & Maths: Statistical modelling, ML, optimisation, differential equations, cryptography

Quantum: Quantum mechanics, entanglement entropy, quantum computing (introductory)

LANGUAGES

Spanish (Native) · English (C1 — Proficient) · French (Basic, in progress)
